## **NATIONAL SHERIFFS' ASSOCIATION Resolution – June 2006**

### **Measure to Enhance Law Enforcement Resources**

**WHEREAS**, homeland security has put new demands on law enforcement resources; and,

**WHEREAS**, results from studies initiated by the alarm industry indicate that Enhanced Call Verification (two or more calls prior to request for dispatch) significantly reduce alarm dispatches, thereby freeing up law enforcement resources that can be redirected to Homeland Security issues; now

**THEREFORE**, Be It Resolved; NSA urges all alarm companies to:

- Immediately implement Enhanced Call Verification (multiple call) procedures to be used by the central station monitoring center prior to law enforcement dispatch on all alarm signals from customer alarms, and
- Support local jurisdiction efforts to adopt procedures or ordinances mandating enhanced or multiple call verification procedures.
